**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art of record is Eckhardt et al., US 5,945,396. The reference discloses fluorescent whitening agents as depicted in the abstract. The Rc groups may be NH-C<sub>6</sub>H<sub>4</sub>-COOM, corresponding to formulas (2) and (3) as claimed. However, the additional group pendent from the triazinyl ring may be NH-alkylene-N(dialkyl), where the present claims constrain this to NH-alkylene—N--H<sub>2</sub> or --dihydroxyalkyl or --dialkylamine or --alkylaminoalkylamine. As these are not art-accepted equivalents of the groups disclosed in the reference, it would not be obvious to make compounds as presently recited, based on the teachings of the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any prior art made of record and not relied upon is of interest and is considered pertinent to applicant's disclosure.
4. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30.
